

Heavy Equipment Certification

- ❖ **Course Code:** TRADE003
- ❖ **Duration:** 6 months
- ❖ **Price:** \$8500
- ❖ **Fall Intake:** September to March
- ❖ **Winter Intake:** January to July
- ❖ **Hours:** Core 300 hours + Elective 900 = 1200 hours total.

Details

You will start with the [Core Construction certification](#) that prepares individuals for positions on project sites by providing the basics in safety, hand and power tools, construction math, materials handling, construction drawings, rigging, and employability skills.

Heavy Equipment Operations (levels 1, 2, & 3) certificate provides learners with safety, pre- and post-operation checks, site planning and layout, and operations for light-duty and heavy equipment. Heavy Equipment Operations supports multiple unique training pathways and credentials for Utility Tractors, Forklift, Loader, Dozer, Motor Graders, and more. The Heavy Equipment Operations curriculum complies with the U.S. Department of Labor's standards for apprenticeship programs..

Earn Three Certificates

Receive certifications employers are looking for. Upon completion of the program, individuals will receive 3 certificates, including certificates stating learners completed the following:

1. Core Construction training.
